OOPS PROJECT

BY- RISHIKA YATISHWAR GAUR(CO19354)

C++ program to demonstrate example of hierarchical inheritance to get square and cube of a number.

CSE 2nd SEMESTER

CCET,SECTOR-26

ACKNOWLEDGMENT

I Rishika Yatishwar Gaur Student of Chandigarh College of Engineering and Technology, am Extremely Grateful to each and every individual who has contributed in Successful Completion of my Project. I Express my Gratitude towards Chandigarh College of Engineering and Technology for their Guidance and Constant Super Vision. As well as for providing the necessary information and Support Regarding the Completion of Project. Thank You

SYNOPSIS

This Project is a minor Project and is made, On The Bases of Practical Concepts of C++. This Project has made our Basic Practical Concepts of C++ Strong.

PROGRAM CODE

```
#include <iostream>
using namespace std;

class Number
{
    private:
        int num;
    public:
        void getNumber(void)
        {
            cout << "Enter an integer number: ";
            cin >> num;
        }
        //to return num
        int returnNumber(void)
        { return num; }
};

//Base Class 1, to calculate square of a number
class Square:public Number
{
    public:
        int getSquare(void)
        {
            int num,sqr;
            num=returnNumber(); //get number from class Number
            sqr=num*num;
            return sqr;
        }
};

//Base Class 2, to calculate cube of a number
class Cube:public Number
{
    private:

    public:
        int getCube(void)
        {
            int num,cube;
            num=returnNumber(); //get number from class Number
```

```

        cube=num*num*num;
        return cube;
    }
};
int main()
{
    Square objS;
    Cube objC;
    int sqr,cube;

    objS.getNumber();
    sqr=objS.getSquare();
    cout << "Square of "<< objS.returnNumber() << " is: " << sqr << endl;

    objC.getNumber();
    cube=objC.getCube();
    cout << "Cube  of "<< objS.returnNumber() << " is: " << cube << endl;

    return 0;
}

```

OUTPUT

```

D:\oops project\Untitled1.exe
Enter an integer number: 5
Square of 5 is: 25
Enter an integer number: 5
Cube  of 5 is: 125

-----
Process exited after 2.893 seconds with return value 0
Press any key to continue . . .

```

THANK YOU
